

SkillsUSA Georgia Skill Point Recipients

Awarding the Skill Point Certificates

Congratulations! SkillsUSA members in your state have earned a Skill Point Certificate at the 2008 SkillsUSA Championships. This is a pinnacle achievement for SkillsUSA members as part of the new Work Force Ready System.

What Are Skill Point Certificates?

Skill Point Certificates are a tool to recognize outstanding talent beyond those who earn medals at the SkillsUSA Championships. The same industry leaders who defined the competencies for the Championships determined a “cut score” that indicates excellence for students entering technical fields. Most cut scores range between 70 and 80 percent, but they vary by technical area. Students can use these certificates to document achievement and to show potential employers as indicators of proficiency.

Kellogg Skillpoint Certificate Recipients
