

SkillsUSA's Member Information System

STUDENT SELF-REGISTRATION & SELF-PAY TECHNICAL GUIDE

About these Features

SkillsUSA is excited to announce the launch of the all-new student membership self-pay option. This new feature of Register, SkillsUSA's Membership Information System gives students the ability to self-register and self-pay their membership dues all in one place. This feature will give advisors the ability to quickly and seamlessly affiliate students with their chapter.

Middle School Statement

Due to The Children's Online Privacy Protection Act regulations, or COPPA, SkillsUSA is not permitted at this time to allow Middle School students and those under the age of 13 to utilize this feature.

This is where you, as an advisor, have the ability to control the availability of both the self-registration and self-pay features for each training program. Additionally, this is where you can access the unique registration code for each training program.

Note: Each Advisor can only view and enable student self-registration and self-pay for their OWN training program.

2

Enable Features

After clicking the “Configure Self-Reg/Pay” button from step 1, click edit in the first column of the table (shown below) to enable/disable these features for your training programs. Enabling these features is as easy as checking a box (shown below). Note that an orange box indicates that this feature is currently active and accessible by students.

As an advisor, you may enable self-registration, self-pay or both features for your chapter at any time. If you wish to collect dues for your chapter face-to-face, you can still enable to self-register option to allow students to enter their own information.

Note: This code is your training program’s unique registration code. This is the code you will provide to students in order for them to affiliate with your specific chapter and training program.

Use this page to enable/disable Student Self-Registration by Training Program and to identify the unique “Registration Code” for each Training Program at your school.

If you enable students to self-register, they can register for SkillsUSA using the link below along with the unique CODE for each Training Program at your school. This simply allows the students to enter their own personal data - each Advisor still needs to confirm the information and JOIN each Training Program.

For more information, [watch this brief training video](#).

Direct students to this link: <https://www.skillsusa-register.org/join> and provide them with the appropriate Registration Code from their Training Program / Class below.

Student Instructions

Now that you have successfully enabled the features of your choosing, you can disseminate instructions to your students on how to self-register, self-pay, or both. The next section of this guide contains instructions for each feature from the student perspective. Please provide your students with these instructions prior to them beginning the registration process.

As an example, advisors may wish to print, email, post or show the instructions found in the next section on their classroom projector.
